# **GUAM TRANSPORTATION IMPROVEMENT PLAN (GTIP) FY 2024 - 2027**

Amendment No.3

## **GTIP FY 2024- 2027**

**The Guam Transportation Improvement Plan (GTIP) for fiscal year 2024 - 2027 is developed in accordance with Section 11126 of the Bipartisan Infrastructure Law and identifies near- term, fiscally constrained transportation proposed for federal funding and implementation.**

**The GTIP supplements the long-range 2030 Guam Transportation Plan and prioritizes projects that address roadway safety, flooding, pavement and bridge conditions, and traffic operational improvements. Funding for Guam transportation projects come from several sources but largely from the Federal Territorial Highway Program (THP), with additional opportunities pursued through federal grants available.**

# PURPOSE

**The purpose of this GTIP amendment is to inform the Federal Highway Administration (FHWA), the public, and other interested parties of the incorporation of the Defense Access Road (DAR) P-108 Potts Junction project activities into the FY 2024 – 2027 GTIP.**

# **PROPOSED AMENDMENT:**

## **DEFENSE ACCESS ROADS (DAR) III - P-108 POTTS JUNCTION**

The project is to reconstruct the existing junction of Route 3, Route 3A, and Route 9 (Potts Junction) to form a roundabout to facilitate efficient accommodation of public and military vehicles. Work includes demolition of existing pavement, construction of drainage, utilities, and a new roadway facilities to provide for the continuous long-term functionality and safety of the local community and military operations in Guam.
