GUAM TRANSPORTATION IMPROVEMENT PLAN

FISCAL YEARS 2024-2027

February 2024

The Government of Guam
Department of Public Works

and

U.S. Department of Transportation
Federal Highway Administration

Government of Guam

APPROVAL OF THE GUAM TRANSPORTATION IMPROVEMENT PLAN

FY 2024 – FY 2027

WHEREAS, the Stewardship Agreement between the Federal Highway Administration – Hawaii Federal-aid Division and the Government of Guam, executed on August 11, 2014 included a provision that the Government of Guam will develop a Guam Transportation Improvement Plan (GTIP) and that the FHWA will review and approve the GTIP; and

WHEREAS, the Guam Transportation Improvement Plan is developed for a period of no less than four years and amended as needed any time after the effective date of the GTIP under direction of the Government of Guam Department of Public Works; and

WHEREAS, the Governor of Guam has directed the Department of Public Works to meet U.S. Department of Transportation planning requirements; and

WHEREAS, the Department of Public Works through the conduct of a continuing, comprehensive and coordinated transportation planning process carried out in conjunction with the Government of Guam has prepared a Guam Transportation Improvement Plan; and

WHEREAS, the Government of Guam Department of Public Works finds that this Guam Transportation Improvement Plan has been prepared through a process of agency coordination and in accordance with required public participation procedures.

NOW THEREFORE, BE IT RESOLVED that the Government of Guam Department of Public Works does hereby approve the Guam Transportation Improvement Plan for FY 2024 - 2027.

APPROVED this 5th day of February, 2024

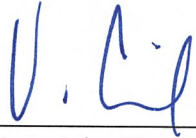

By: 
Vince P. Arriola, Director, Department of Public Works

APPENDIX A – GTIP PUBLIC MEETING AND REVIEW PERIOD SUMMARY	A1-A4

EXECUTIVE SUMMARY

The Government of Guam Department of Public Works (DPW) developed the Transportation Improvement Plan (GTIP) for federal fiscal years 2024-2027. The GTIP was prepared in accordance with the requirements of Section 11126 of Infrastructure Investment and Jobs Act, also known as “Bipartisan Infrastructure Law (BIL) Act (P.L.No. 117-58), in order to provide a list of transportation improvement projects for implementation. This GTIP provides a near-term improvement plan that is financially feasible, fiscally constrained, and reflects the highway projects that the DPW prioritizes for the expenditure of federal funds for the noted fiscal period.

This GTIP is adjunct to the 2030 Guam Transportation Plan (GTP), Guam's long range (20+ year) multi modal transportation strategy and follows previous GTIP documents. The 2030 GTP was finalized December 2008 and presented a long-term strategy to improve transportation throughout Guam. The plan forecasted traffic growth through the year 2030 and included impacts associated with the potential U.S. Department of Defense (USDOD) build-up as it was understood at the time the 2030 GTP was produced. Since then, the military buildup planned for Guam has been reduced. To capture this change in traffic forecast and to document an analysis of traffic safety on Guam, the 2019 Traffic Safety and Operation Study (TSOS) was developed. The TSOS supplements the 2030 GTP.

Projects in the GTIP were developed through a comprehensive transportation planning process and based on data collected through the Pavement Management System, results from the Bridge Inspection Reports, needs identified in the 2030 Guam Transportation Plan, and commitments from prior GTIP documents. The list of projects is a product of a consensus building process with decision-making supported by data driven analysis that was carried out by the DPW in cooperation with local villages, utility providers, the local government agencies, and Federal government agencies.

Projects contained in the GTIP FY2024-2027 were selected to address safety issues, including issues from flooding on Guam’s roadway system, pavement, and bridge conditions, and provide traffic operational improvements. Funding for Guam transportation projects will come from several sources, but largely from the Federal Territorial Highway Program (THP) and with commitment to seek and apply for federal grant funding as released from the BIL Act and other US government agencies.

A summary of the funds anticipated to be available to DPW for transportation projects over the four-year life of the GTIP is as follows:

Fiscal Year	Funding Source	Amount
2024	Territorial Highway Program	\$25,005,000
	GARVEE	\$35,000,000
	Defense Access Road	\$280,875,000
	Section 1934	\$705,326
	Grant Programs	\$83,390,000
2025	Territorial Highway Program	\$17,577,000
	Grant Programs	\$57,545,000
2026	Territorial Highway Program	\$17,917,000
	Grant Programs	\$91,895,000
2027	Territorial Highway Program	\$18,045,000
	Grant Programs	\$61,401,000

The Government of Guam will seek a Grant Anticipation Revenue Vehicles (GARVEE) bond in the amount of \$35,000,000.

The funds available to the Government of Guam, over the four-year life of the GTIP, is planned to be utilized in the following manner:

Funding Source	Amount
Territorial Highway Program Projects and Services	\$81,030,000
Section 1934	\$705,326
Defense Access Road	\$280,875,000
Grant Program	\$294,231
GARVEE	\$35,000,000

INTRODUCTION

PURPOSE

The purpose of this document is to inform the Federal Highway Administration (FHWA), the public, and other interested parties that the Government of Guam Department of Public Works (DPW) has met the requirements of the Infrastructure Investment and Jobs Act, also known as “Bipartisan Infrastructure Law” (BIL) Act for the development of the Guam Transportation Improvement Plan (GTIP).

This document provides a Transportation Improvement Plan (TIP) that is financially feasible, fiscally constrained and depicts DPW's priorities for the expenditure of federal funds for fiscal years 2024-2027.

TRANSPORTATION PLANNING

In order to plan for and implement transportation improvement projects, the DPW produces two major work products: the Guam Transportation Plan and the Guam Transportation Improvement Program.

GUAM TRANSPORTATION PLAN (GTP)

The GTP is a long range (20+ year) multimodal transportation strategy and capital improvement program developed to guide the effective investment of public funds in transportation facilities for a variety of purposes including:

- 1) To help manage traffic congestion,
- 2) To provide a comprehensive transportation system for residents, workers and visitors, and
- 3) To increase modes of travel.

DPW's current Transportation Plan was adopted in 2008 and extends through the year 2030.

GUAM TRANSPORTATION IMPROVEMENT PLAN (GTIP)

The GTIP is a four-year plan that lists federally funded projects and transportation services on Guam, including highway and street projects, bridge projects, and bicycle/pedestrian enhancement projects.

The projects identified in the long range 2030 GTP provide the basis for selection and prioritization of projects in the GTIP. Projects are required to be included in the 2030 GTP before they can be programmed (funded) in the GTIP. The GTIP establishes the list of projects in a given fiscal period that have been deemed to be the highest priority and feasibly implemented. The GTIP is a budgeting document that indicates which projects will be implemented in the current four-year period.

GTIP DEVELOPMENT PROCESS

OVERVIEW

The GTIP was developed by the Government of Guam DPW, in consultation with the FHWA and includes input from the public.

The GTIP consists of a priority list of highway projects, which are being advanced toward implementation over the four-year period from Federal Fiscal Year 2024 to Federal Fiscal Year 2027. Projects in the GTIP have been developed through the transportation planning process and are drawn from the 2030 GTP, which is being amended with the 2019 Traffic Safety and Operations Study. Projects have also been drawn from the Pavement Management System findings and Bridge Inspection and Load Rating Reports.

Projects contained in the FY2024-2027 GTIP address safety, pavement and bridge conditions, and traffic operations.

FUNDING SOURCES

Funding for Guam transportation projects comes primarily from federal funding through the Federal Territorial Highway Program (THP).

The table below provides a summary of the funding that DPW expects to receive over the four-year life of the GTIP.

Fiscal Year	Funding Source	Amount
2024	Territorial Highway Program	\$25,005,000
	GARVEE	\$35,000,000
	Defense Access Road	\$280,875,000
	Section 1934	\$705,326
	Grant Programs	\$83,390,000
2025	Territorial Highway Program	\$17,577,000
	Grant Programs	\$57,545,000
2026	Territorial Highway Program	\$17,917,000
	Grant Programs	\$91,895,000
2027	Territorial Highway Program	\$18,045,000
	Grant Programs	\$61,401,000

TERRITORIAL HIGHWAY SYSTEM

The Federal Territorial Highway Program (THP) was created by Section 112 of the Federal-Aid Highway Act of 1970 (Public Law 91-605) by adding Section 215 to Title 23, United States Code (U.S.C.). Federal financial assistance was granted to the Virgin Islands, Guam, Commonwealth of the Northern Marianas Islands and American Samoa for the construction and improvement of a system of arterial highways and necessary interisland connectors through the General Fund of the Treasury. Under 23 U.S.C. 215(b)(1), the intent of the THP is to assist each territory in the construction and improvement of a system of arterial and collector highways, and necessary inter-island connectors. This system is referred to as the Territorial Highway System.

The primary source of funding for GTIP projects is Federal money received by Guam through the THP. The FHWA provides funds for Guam through the most current federal transportation authorization, the BIL Act. The BIL Act reaffirmed the mutual benefits that will accrue to the territories and the United States from the improvement of highways in the territories. Additionally, it authorizes the Secretary of Transportation to carry out a program to assist each territory in the construction and improvement of a system of arterial and collector highways and necessary inter-

island connectors. [Title 23, U.S.C., Section 165(c)(2)(A)]. Sections 1126 of the BIL Act provide funds for the THP under 23 U.S.C. 165(a)(2) for Fiscal Years 2022 through 2026. These funds provide contract authority authorized from the Highway Trust Fund.

Although the BIL Act expires at the end of FY 2026, this GTIP has been prepared under the assumption that the total amount of Federal funds authorized to Guam under the BIL Act will stay constant for the following one (1) Federal Fiscal year (FY 2027).

FEDERAL SHARE

Under 23 U.S.C. 215(b)(2), the Federal share for this THP funding is in accordance with 23 U.S.C. 120(h), which states that the Federal share for any project under Title 23 in the Virgin Islands, Guam, American Samoa, or the Commonwealth of the Northern Mariana Islands is 100 percent.

EMERGENCY RELIEF (ER) PROGRAM

Congress authorized in Title 23, United States Code, Section 125, a special program from the Highway Trust Fund for the repair or reconstruction of Federal-aid highways and roads on Federal lands which have suffered serious damage as a result of natural disasters or catastrophic failures from an external cause. This program, commonly referred to as the emergency relief or ER program, supplements the commitment of resources by States, their political subdivisions, or other Federal agencies to help pay for unusually heavy expenses resulting from extraordinary conditions.

The applicability of the ER program to a natural disaster is based on the extent and intensity of the disaster. Damage to highways must be severe, occur over a wide area, and result in unusually high expenses to the highway agency. Applicability of ER to a catastrophic failure due to an external cause is based on the criteria that the failure was not the result of an inherent flaw in the facility but was sudden, caused a disastrous impact on transportation services.

For the purposes of 23 U.S.C. 125, the Federal-aid highways in the territories are those on the approved Territorial Highway System (THS), which include the major roads on Guam. In accordance with subsection 125(f), for purposes of the emergency relief program, the territories are considered as States. Under the provisions of section 125(d), the annual obligation limitation for ER funding in the territories as a group is \$20 million.

For the purpose of expense planning in the GTIP, the only ER revenues programmed are funds previously authorized for permanent restoration of damaged infrastructure resulting from typhoon Mawar which occurred on May 24, 2023.

If another disaster strikes during the life of this GTIP, funds will be authorized to Guam from the ER Program and obligated over and above the current value of Guam's TIP.

GRANT ANTICIPATION REVENUE VEHICLES (GARVEE) BOND

The DPW will pursue the issuance of a GARVEE bond for \$35M to fund specific projects in the GTIP FY2024 - FY2027. The GARVEE bond is a financing mechanism to generate up-front capital to fund Federal-aid projects using future Federal-aid highway funds to pay debt service and bond-related expenses. The proceeds from the GARVEE will enable the DPW to accelerate the timing of select projects and increase the number of projects that can be programmed in the GTIP.

If approved, the following construction projects will be financed with GARVEE proceeds:

- Route 17 Reconstruction and Widening from Rt 5 to Rt 4A, Phase 2B
- Route 14B (Ypao Road) Reconstruction and Widening, Phase 2 - Village

EARMARKS

Section 1934 of the SAFETEA-LU authorization (prior to MAP-21) identified funds for certain Transportation Improvement Projects. \$705,326 of Section 1934 funds are applicable in this GTIP for the construction of Auto Lot Expansion and Shared Access Road Pavement.

GRANT PROGRAMS

The Government of Guam will apply for upcoming available grant programs through BIL Act and other federal government agencies.

PROJECT SELECTION

Projects are selected to be placed on the GTIP based on three main factors:

- Condition and need
- Source of funds
- Availability of funds

The majority of the funds for the GTIP come from the Federal Territorial Highway Program (THP) which is dispersed to Guam in four preset amounts throughout the life of the GTIP. Consequently, in addition to the environmental, property, traffic and community impact issues, the majority of the projects selected are based on condition, need and the availability of funds from FHWA.

ELIGIBLE ACTIVITIES

The eligible projects and activities for which funds made available for the THP may be used are listed in 23 U.S.C. 215(f)(1) as follows:

- A) Eligible surface transportation program (STP) projects described in 23 U.S.C. 133(b), which is included in appendix C of this guidance;
- B) Cost-effective, preventive maintenance consistent with 23 U.S.C. 116(d);
- C) Ferry boats, terminal facilities, and approaches, in accordance with 23 U.S.C. 129(b) and (c);
- D) Engineering and economic surveys and investigations for the planning and the financing of future highway programs;
- E) Studies of the economy, safety, and convenience of highway use;
- F) Regulation and equitable taxation of highway use; and,
- G) Research and development necessary for the planning, design, and maintenance of the highway system.

Under the provisions of 23 U.S.C. 215(g), THP shall not be used on roads functionally classified as local, with the following exceptions:

- Construction, reconstruction, rehabilitation, resurfacing, restoration, and operational improvements on bridges, as indicated in 23 U.S.C. 133(b)(1);
- Carpool, bicycle, and pedestrian projects, as indicated in 23 U.S.C. 133(b)(3); and,
- Highway and transit safety projects and programs, as indicated in 23 U.S.C. 133(b)(4).

Under the provisions of 23 U.S.C. 215(f)(2), THP funds shall not be obligated or expended for routine maintenance.

FINANCIAL PLAN

OVERVIEW

The projects contained in the GTIP are derived from the 2030 Guam Transportation Plan including the 2019 Traffic Safety and Operation Study amendment, Pavement Management System, Bridge Inspection Reports, commitments from prior GTIP documents and were selected based on condition/need, source of funds and availability of funds. Timing of each project is contingent upon the availability of funds for any given fiscal year.

The tables on the following pages represent the Guam DPW's priorities and implementation plan for the expenditure of federal funds for the Federal Fiscal years 2024 - 2027.

GUAM TRANSPORTATION IMPROVEMENT PROGRAM (GTIP)

PUBLIC MEETING AND REVIEW PERIOD

September 25, 2023

A public meeting was held on September 25, 2023 for the Guam Transportation Improvement Program for Fiscal Years 2024 to 2027 at the Sinajana Mayor's Office at 5:30 PM Chst to 7:30PM.

ATTENDEES:

Twenty-six (26) people were in attendance during the public meeting. Attendees were afforded the opportunity to review the draft Guam Transportation Improvement Program (GTIP) for Fiscal Years 2024 to 2027 (FY2024-2027) and ask questions of the subject experts from the Department of Public Works and the Program Management Team.

PUBLIC REVIEW PERIOD:

During the public review period between September 25, 2023 to October 26, 2023, the following questions were received from the public.

Two (2) comments were received.

Questions 1: Is there plans for Pago Bay River Flood mitigations, and road pullout?

Response 1: the Leo Palace Bridge Scour Countermeasures and Roadside Safety Improvement and Pago Bay Scour Countermeasures project included in the GTIP will address some of the flooding along Route 4 near the Pago Bridge.

Questions 2: Is there plans for improved access to the Chinese Park which is along Route 1 (Marine Corps Dr.)?

Response 2: The Chinese Park is under the jurisdiction of the Government of Guam, Department of Parks and Recreation. Infrastructure associated with Parks and Recreation is not a premise of the GTIP. The Department of Public Works, will forward this concern to Parks and Recreation and help review potential solutions with Parks and Recreation.

The first two (2) pages have copies of the public notice advertisements that were published in the Guam Daily Post on [9/18/23] and on [9/22/23].

The third (3) page shows the attendance sheet from the Public Meeting on [9/25/23].

NOTICE OF SALE UNDER MORTGAGE

NOTICE IS HEREBY GIVEN, pursuant to 18 G.C.A. §36113, Paragraph 22 of the below described mortgage and the Notice of Default recorded on May 10, 2023 as Instrument No. 986775, that the mortgage executed on April 23, 2007 by RONALD G. HARTZ, ("Mortgagor"), in favor of GOVERNMENT OF GUAM EMPLOYEES FEDERAL CREDIT UNION nka COAST 360 FEDERAL CREDIT UNION, ("Mortgagee"), and filed for record in the Department of Land Management, Government of Guam, on April 24, 2007 as Instrument No. 754205, will be FORECLOSED pursuant to a POWER OF SALE contained in the above mortgage.

The property described below will be sold, WITHOUT WARRANTY OF ANY KIND BEING GIVEN, EXPRESS OR IMPLIED, including without limitation, warranties regarding title, possession, rights of redemption, subsurface conditions, the condition of any structure or encumbrances, to the highest bidder at public auction, to be held at the Mayor's office in Umatac, Guam at 2:00 p.m. on October 6, 2023, in order to satisfy the amount due on the mortgage and its promissory note at the time of the sale. Terms of the sale are cash, certified check or other terms deemed acceptable by Mortgagee. The Mortgagee reserves the right to bid all or part of the amount due on the mortgage at the time of the sale; to reject any bid made at the sale and to withdraw this notice and postpone the sale from time to time.

The property subject to the mortgage and to be sold at sale is as follows:

Lot No. 3-R1, Block 10, Tract 3241, Umatac, Guam, Estate No. 62349, Suburban, as said lot is marked and designated on Map Drawing No. PW87MOI (LM#312FY87) dated February 24, 1988 and recorded March 3, 1988 in the Department of Land Management, Government of Guam under Instrument No. 395286. Area: 836 ± square meters.

The amount due the Mortgagee is for the sum of \$60,070.78, plus interest as of April 28, 2023 of \$5,125.48, interest at the rate of 6.375% per annum from April 28, 2023 to the date of full payment attorney fees, and costs of this sale.

If the sale is set aside for any reason, the purchaser at the sale shall be entitled only to a return of the deposit paid. The purchaser shall have no further recourse against Mortgagor, the Mortgagee or the Mortgagee's attorneys.

The undersigned are the attorneys for the Mortgagee and hereby give notice that they are attempting to collect a debt and any information that is obtained will be used for that purpose.

Dated this 6th day of September, 2023.

Guam Transportation Improvement Plan (GTIP) 2030 Goals

- Identify potential program and project funding
- Focus on preservation of assets in order to extend the service life of critical infrastructure
- Provide expedited, continuous short and long term improvements to address safety, drainage and pavement conditions
- Ensure that transportation services, burdens and benefits are fairly distributed to all
- Provide training to the industry to support the planned improvements and help ensure succession
- Focus on safety, accessibility, mobility & connectivity
- Promote efficiency of services & systems for Guam's motorists, pedestrians and visitors
- Enhance environmental & resource conservation
- Promote communication and collaboration among transportation users and providers
- Ensure existing transportation programs are maintained
